WashTec / AUWA
Quality, safety, environmental and energy policy

At WashTec / AUWA, we operate an integrated management system in accordance with

- DIN EN ISO 9.001 quality management system,
- DIN EN ISO 14.001 Environmental management system,
- DIN EN ISO 50.001 Energy management system,
- SCC** Safety Certificate Contractors

Every WashTec employee is jointly responsible for complying with and implementing these guidelines.

We, as WashTec / Auwa employees, are committed to

- to comply with laws, relevant standards, regulations and all internal requirements

- to act and live in accordance with the principles of the Safety Rules and Environmental Directive

- efficiently utilise the resources required to achieve the objectives so that the set targets are met

- continuously address the issues of quality, safety and sustainability and actively develop these further

- consider and utilise feedback from our customers, colleagues and third parties as a key source of improvement and opportunity

- on activities/projects that contribute to the improvement of our continuously monitored environmental performance and energy efficiency within the framework of this IMS policy

- for the purchase of products, services and design-related activities that take account of sustainability and energy efficiency requirements,

- to inform and involve all colleagues with regard to our management systems
